## DETAILED ACTION

### *Allowable Subject Matter*

The argument in the response to the non-final rejection is persuasive and the non-final rejection of previous office action is withdrawn. Claims 11,12,14,15,17,19-21 24-26 and 36-42 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims:

Reference Yang (US 6,569,700) do not disclose:

- An epitaxial layer of a first conductive type having an upper surface.
- An isolation trench at least partially bounding an upper portion of the well at the opposing sides having a depth from the upper surface of the layer comprising the first conductive type epitaxial layer less than the depth of the well.

Reference Rhodes (US 6,723,594) and Rhodes (US 6,661,047) do not disclose:

- An isolation trench at least partially bounding an upper portion of the well at the opposing sides having a depth from the upper surface of the layer comprising the first conductive type epitaxial layer less than the depth of the well.

Therefore, the above references do not disclose the claimed invention of present application and claims 11,12,14,15,17,19-21 24-26 and 36-42 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
